Forsyth County Environmental Affairs Department
Paint Stripping and Miscellaneous Surface Coating Operations
Subpart HHHHHH/ 40 CFR 63.11169 - 63.11180
Form MEX

5. **Request for exemption. Spray application of coatings to motor vehicles and mobile equipment including fixed and mobile operations.**

My coatings do not contain the target HAPs (chromium, lead, manganese, nickel, or cadmium) and I am applying for exemption to this standard. If I begin using coatings that contain a target HAP I will submit the initial notification and comply with this standard upon use

A list of my coatings is attached that includes product name, manufacturer, product number.

I have MSD sheets or other manufacturer data on-site to demonstrate that my coatings do not contain a target HAP. I must keep copies of coating data for five years (two years on-site).

Sign this certification and submit to both the Environmental Affairs and US EPA at the addresses on the last page.

The undersigned certifies under the penalty of law that all information and statements provided in this request for exemption, based on information and belief formed after reasonable inquiry, are true, accurate, and complete.

Signature of responsible company official listed in Section 2 or 4.

Date

Sign this certification and submit this form and other applicable forms to both the Environmental Affairs and US EPA.
