

FORSYTH COUNTY CENTER

Urban Farm School

Students learn & apply urban food production skills, with the goal of growing and selling their produce.

2023 Course Details:

12 weeks | March-June | Free
Wednesdays and Fridays
9am-12pm

1450 Fairchild Rd, Winston-Salem

Students will gain skills in:

- Site Selection
- Soil Structure and Health
- Crop Selection & Production Mapping
- Irrigation Installation
- Crop Establishment
- Fertility Management
- Integrated Pest Management
- Disease Management
- Business Planning
- Marketing Best Practices
- Financial Literacy & Record Keeping
- Pre & Post Harvest Produce Safety

Are you trying to start a small farm in Forsyth County?

The objective of this hands-on class is to aid aspiring farmers in the development of small urban farms. In the span of 12 weeks, novice students can expect to gain practical market gardening knowledge and related transferable skills via lessons and in-field experiences lead by a variety of local agricultural experts.

By planting, growing, harvesting and selling a season's crop, students can expect to gain experience with practical methods of farming with an eye for economic empowerment to benefit their families and their community.
